

2016 Montana Health Alert Network (HAN)

YEAR IN REVIEW

HAN Overview

17 HANs were released in 2016. This infographic examines performance data for DPHHS and 58 Local Health Jurisdictions (LHJs) in Montana.

HAN Messages - Classifications in 2016

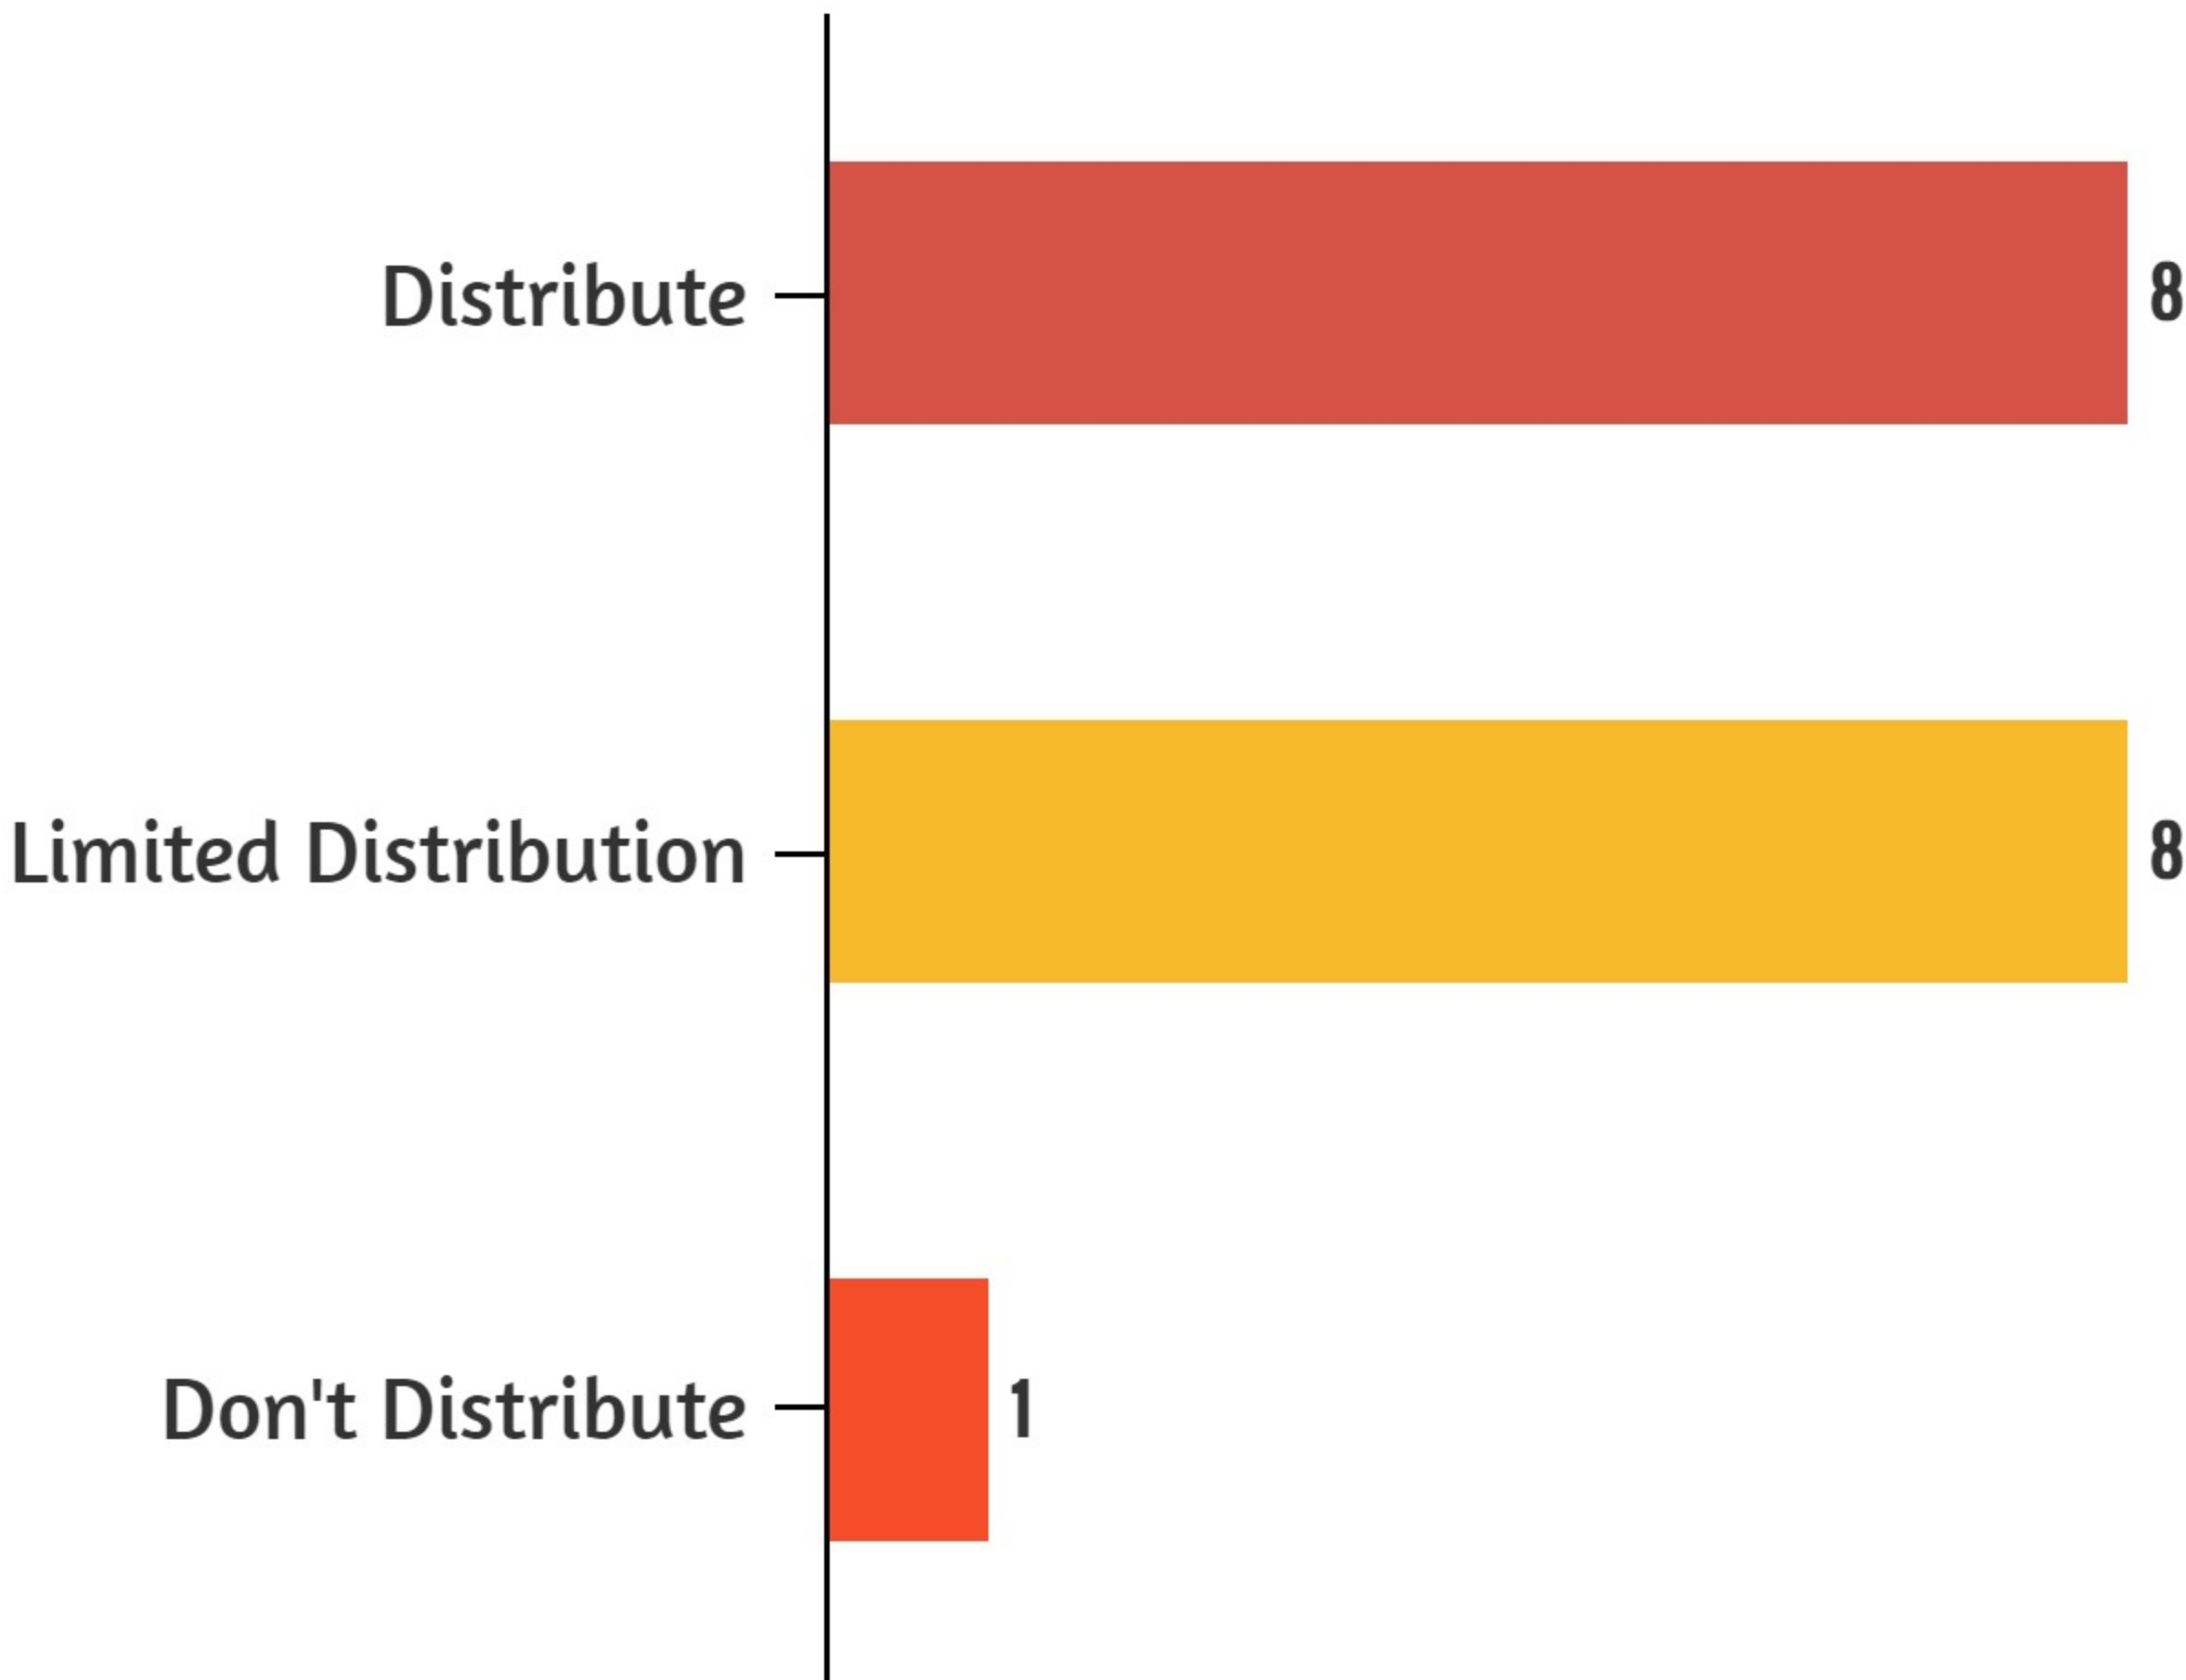

Alert - provides vital, time-sensitive information for a specific incident or situation; warrants immediate action or attention and conveys the highest level of importance.

Advisory - provides important information for a specific incident or situation or situation; contains recommendations or actionable items to be performed; may not require immediate action.

Update - provides updated information regarding an incident or situation; unlikely to require immediate action.

Distribution Instructions

Each HAN issued includes recommendations for sharing with either all local partners, some local partners or just for internal use or testing.

Topics

The subject of 2016 HAN messages is reflected in the "Word Cloud" above, larger words represent more common topics.

Response Rates

All HANs require acknowledgement by the LHJ and DPHHS tracks response rates with a goal of 90% response.
